ACTION TAKEN REPORT OF ALUMNI FEEDBACK ANALYSIS ON CURRICULUM (2025–2026)

The Alumni Feedback on Curriculum for the academic session 2025–2026 was analysed by the IQAC. A total of **14 responses** were received. Since the number of responses was relatively small, the findings should be interpreted cautiously and may not fully represent the views of the entire alumni community. Nevertheless, the feedback provided useful inputs for identifying areas requiring further academic and curricular improvement.

Based on the feedback received, the following key areas for improvement were identified:

Identified Areas for Improvement

1. **Alignment of Curriculum with Industry Requirements:**

The curriculum needs to be progressively aligned with emerging industrial trends, changing professional requirements, technological advancements, and employability skills.

2. **Greater Emphasis on Practical and Experiential Learning:**

Alumni suggested strengthening practical training, extension activities, field investigations, internships, projects, and other experiential learning opportunities to complement classroom-based education.

Action Taken / Proposed Action Plan

1. **Enhancement of Practical Exposure:**

The institution is taking steps to introduce **mandatory internships, field projects, project-based learning, and practical training** in selected programmes, wherever feasible, to provide students with meaningful exposure to real-world working

environments. Mandatory projects, field work or internship is introduced in all programmes under NEP 2020 from academic session 2026-2027.

2. **Introduction of AEDP Programme from 2026–27:**

From the academic session 2026–27, the institution is initiating the AEDP programme with a focus on developing industry-relevant competencies and enhancing students' employability. The programme will provide opportunities for internships, mentorship, live projects, experiential learning, and interaction with industry experts.

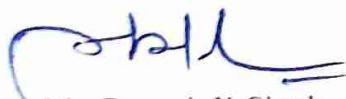

3. **Strengthening Industry–Academia Interaction:**

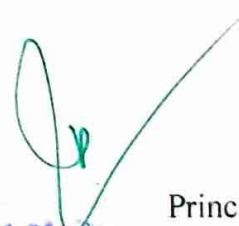

For this Memorandum is signed between EPIC Technology Business Incubator and Organic with love. Further departments will be encouraged to invite industry professionals, subject experts, entrepreneurs, and practitioners for guest lectures, workshops, seminars, hands-on training, and career-oriented interactions.

4. **Promotion of Field-Based and Extension Activities:**

NSS, NCC , Rover and Rangers, Eco-club and others clubs formulated in college conduct extension activities.

Suggestions received from alumnus will be forwarded to the affiliating university SPU for their better implementation..
