ACTION TAKEN REPORT ON TEACHER'S FEEDBACK Analysis ON CURRICULUM (2025-2026)

The Internal Quality Assurance Cell (IQAC) of RGM Government College, Joginder Nagar analyzed the feedback received from 34 teachers representing 21 subjects regarding the curriculum for the academic session 2025-26. The participation was gender-balanced, with 17 male and 17 female teachers responding.

The feedback indicates that teachers are generally satisfied with the clarity, organization, suitability, and distribution of the curriculum. However, the responses also highlighted the need for greater emphasis on practical learning, skill development, employability, job-readiness, field-based learning, and emerging areas of knowledge.

Based on the feedback analysis, the IQAC has proposed and initiated the following actions for continuous improvement of curriculum implementation and teaching-learning practices.

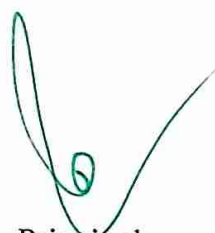

1. **Practical Learning:** Departments were encouraged to strengthen practical work, field visits, projects, presentations, demonstrations and experiential learning.
2. **Skill Development:** Skill-oriented activities and hands-on assignments are being promoted to enhance students' competencies.
3. **Employability:** Greater emphasis is being given to career counseling, competitive examination guidance, placement activities and employment-oriented courses.
4. **Emerging Technologies:** This can be taken up with the affiliating university so that new topics like AI and cloud Computing can be added in the curriculum.
5. **ICT Integration:** 3 new virtual class room and one smart class room are setup in the session 2025-26.
6. **Learner Support:** Remedial teaching and enrichment activities are being promoted to address the needs of slow and advanced learners.
7. **Curriculum Review:** Specific suggestions regarding syllabus structure, course length and content will be communicated to the SPU Mandi, authorities where required.

8. **Continuous Feedback:** IQAC will continue to collect and review teacher and student feedback for further improvement in curriculum delivery.

Overall, the IQAC has taken the feedback positively and will continue efforts to make curriculum delivery more practical, skill-based, technology-enabled and employment-oriented.
